Social Security Administration's Listing of Impairments

The Listing of Impairments describes, for each major body system, impairments that are considered severe enough to prevent a person from doing any gainful activity. Most of the listed impairments are permanent or expected to result in death, or a specific statement of duration is made. For all others, the evidence must show that the impairment has lasted or is expected to last for a continuous period of at least 12 months. The criteria in the listing of impairments are applicable to evaluation of claims for disability benefits from the Social Security Administration (SSA). Visit SSA web site for more specific information.
